REF.: What's New with GSW Press...

Dear Valued Customers and Friends,

GSW has formed an exclusive agreement with Coe Press out of Sterling Heights Michigan.

We are very excited about this new venture and look forward to a great relationship. The venture increases both companies' capabilities. Together, we will be able to serve our customers yet better than before!

The focus between us and Coe will be such coil feeding equipment serving special applications: Very heavy coil stock and limited floor space environments.

We have been building special expertise in those niches over many years and were able to place several systems in the North American market in the recent past. With Coe we can intensify those efforts.

To learn more about our agreement, please contact us at 419-733-5230 or Coe Press under 586-979-4400.

Representing GSW,

Benjamin Schwabe
General Mgr. & Sales
